

The **Cognitive Modeling Group** of the interdisciplinary **Institute of Cognitive Science (IKW)** at the University of Osnabrück (Germany) seeks applicants for a three-year

doctoral position (50%)
(salary level E13 TV-L)

The position involves participation in the research activities of the Cognitive Modeling Group in the areas of categorization, concept formation, and visual perception as well as teaching Cognitive Science courses (the weekly teaching load is two hours, teaching language is English).

The position offers the possibility of further academic qualification.

Applicants are expected to have an excellent academic degree (Master/Diploma) in either Cognitive Science, Psychology, Computer Science or another discipline relevant to Cognitive Science. Prior experience with at least one of the following fields is required: Mathematical modeling, machine learning or experimental psychology.

The University of Osnabrück is an equal opportunity employer. Women are therefore especially encouraged to submit their applications and will be preferentially considered provided they are equally qualified. Disabled candidates with equal qualifications will be given preference.

Applications with the usual documentation (CV, list of publications, and the names of two referees) should be submitted **no later than September 9th, 2010** to the Director of the Institute of Cognitive Science, University of Osnabrück, Albrechtstraße 28, 49076 Osnabrueck. Further information can be obtained from Prof. Dr. Frank Jäkel (fjaekel@uos.de).
