The conference organizers request full paper submissions on original spatial cognition research and particularly encourage contributions from interdisciplinary / international collaboration. The target length of paper contributions is 15-20 pages including abstracts in the Springer LNCS format (see www.springer.de/comp/lncs/authors.html). Selected papers will be given 30 minutes for presentation and discussion at the conference.

Spatial Cognition 2006 continues a series of international spatial cognition conferences published in the Springer Lecture Notes in Artificial Intelligence since 1998.

Workshop and tutorial proposals should be submitted on 1-2 pages. All spatial cognition topics and related aspects are welcome.

We request electronic submissions, preferably in pdf format.
Details are found at www.sfbtr8.uni-bremen.de.
